

IRIS Release Notes v.6.8.5

January 25th, 2024

Bug Fixes

Request ID	Subject	Category
367035	AOR Missing Correction Needed Status	Pre Case
Corrected an issue stemming from new “Arrived from R&P” Status, where the “Correction Needed” status was hidden from AORs. JIRA Ticket Reference: AP-6591		
367516	Affiliate Profile Language Selection Not Working	Administration
Corrected an issue when certain Nationalities were selected in Affiliate Profile not all the expected languages were populating.		
370346	Notification Emails Not Sending	Administration
Corrected an issue where notification emails would not send if the character string in the EmailTo field was greater than 200 characters. JIRA Ticket Reference: AP-6760
